

Luis D. Guerra

WordPress Developer | Front-End Web & HTML Email Developer

PROFILE SUMMARY

Technically-driven Developer and Local SEO Specialist with 4+ years of experience designing, developing, optimizing, and managing high-performing websites for small businesses, contractors, and service-based organizations. Founder of Maxella Web Designs, delivering custom WordPress and Elementor solutions that improve online visibility, user experience, and lead generation. Skilled in responsive web development, technical SEO, website performance optimization, conversion-focused design, and client relationship management. Experienced with WordPress, WooCommerce, HTML, CSS, JavaScript, GA4, Google Search Console, and modern SEO platforms. Currently expanding expertise in Artificial Intelligence technologies and automation to help businesses improve digital marketing performance and operational efficiency.

KEY HIGHLIGHTS

- Founded and operate Maxella Web Designs, providing custom WordPress website development and Local SEO services for small businesses throughout New Jersey.
- Successfully manage the complete website lifecycle, including discovery, planning, design, development, launch, hosting, maintenance, and ongoing optimization.
- Develop conversion-focused websites that improve user engagement, lead generation, and customer acquisition through strategic UX/UI design.
- Implement Local SEO strategies utilizing Google Search Console, Google Analytics 4, Ahrefs, Rank Math, and Local Falcon to improve search visibility and local rankings.
- Build responsive WordPress and WooCommerce websites optimized for mobile performance, speed, accessibility, and SEO best practices.
- Create locally targeted content strategies and service-area pages that enhance organic search performance and support business growth.
- Currently pursuing AI certifications and expanding expertise in AI-powered content creation, workflow automation, and digital marketing technologies.

WORK EXPERIENCE

Maxella Web Designs | Founder & WordPress Developer

Hillsborough, NJ | September 2025 – Present

- Founded and operate a web design and Local SEO agency serving small businesses, contractors, and service-based organizations throughout New Jersey.
- Design, develop, launch, and maintain custom WordPress and Elementor websites focused on lead generation, user experience, and business growth.
- Manage the complete project lifecycle including client discovery, requirements gathering, content planning, design, development, testing, deployment, hosting, maintenance, and technical support.
- Build SEO-optimized service pages and local content strategies utilizing Google Search Console, Google Analytics 4, Ahrefs, Rank Math, and Local Falcon.
- Implement technical SEO best practices including site architecture improvements, metadata optimization, schema markup, internal linking, and page-speed enhancements.
- Develop mobile-responsive websites with conversion-focused layouts, clear calls-to-action, contact forms, trust signals, and optimized user journeys.
- Troubleshoot website issues, plugin conflicts, hosting configurations, and WordPress maintenance requirements to ensure optimal performance and uptime.
- Prepare proposals, manage client communications, provide project updates, and deliver ongoing post-launch support and website enhancements.
